# CON\_CRET3

Dalle mani esperte degli artigiani emerge un nuovo progetto, neutro ed eclettico, che Sichenia eleva in superficie ceramica.

Essenziale, moderno, versatile e materico, i quattro aggettivi che caratterizzano Con\_cret3, ideato per rispondere alle molteplici esigenze tecniche e stilistiche del momento.

La storia dell'architettura moderna e contemporanea ha visto il Cemento come uno dei materiali più utilizzati all'interno del panorama del design, poiché permette a ogni progettista di configurare e di personalizzare gli spazi seguendo specifiche esigenze stilistiche e arredative.

Con\_cret3 può essere mescolata con altri materiali per creare superfici ibride che combinano le proprietà dei vari elementi. Questa versatilità la rende una scelta ideale per progetti architettonici e di design contemporanei.

From the expert hands of artisans a new project arises, neutral and eclectic, that Sichenia elevates to ceramic surface.

Essential, modern, versatile and textural are the four adjectives that characterize Con\_cret3, designed to meet the multiple technical and stylistic needs of the moment.

The history of modern and contemporary architecture has seen concrete as one of the most widely used materials within the design scene, as it allows each designer to configure and customize spaces following specific stylistic and furnishing requirements.

Con\_cret3 can be mixed with other materials to create hybrid surfaces that combine its properties with those of other materials. This versatility makes it an ideal choice for contemporary architectural and design projects.

Des mains expertes des artisans naît un nouveau projet, neutre et éclectique, que Sichenia élève au rang de surface céramique.

Essentiel, moderne, polyvalent et matériel, les quatre adjectifs qui caractérisent Con\_crets ; conçu pour répondre aux multiples besoins techniques et stylistiques du moment.

Dans l'histoire de l'architecture moderne et contemporaine, le béton est l'un des matériaux les plus utilisés sur la scène du design, car il permet à chaque designer de configurer et de personnaliser les espaces en fonction d'exigences stylistiques et d'ameublement spécifiques.

Con\_cret3 peut être mélangé à d'autres matériaux pour créer des surfaces hybrides qui combinent les propriétés de divers éléments. Cette polyvalence en fait un choix idéal pour les projets d'architecture et de design contemporains.

Aus den erfahrenen Händen der Kunsthändwerker entsteht ein neues neutrales und vielseitiges Projekt, das Sichenia auf eine Keramikoberfläche hebt.

Wesentlich, modern, vielseitig und materiell, die vier Adjektive, die Con\_crets charakterisieren; Entwickelt, um den vielfältigen technischen und stilistischen Anforderungen des Augenblicks gerecht zu werden.

In der Geschichte der modernen und zeitgenössischen Architektur ist Zement eines der am häufigsten verwendeten Materialien im Designbereich, da es jedem Designer ermöglicht, Räume entsprechend spezifischer Stil- und Einrichtung Bedürfnisse zu konfigurieren und zu personalisieren.

Con\_cret3 kann mit anderen Materialien gemischt werden, um hybride Oberflächen zu schaffen, die ihre Eigenschaften mit denen anderer Materialien kombinieren. Diese Vielseitigkeit macht es zur idealen Wahl für zeitgenössische Architektur- und Designprojekte.

# FORMATI E COLORI

SIZE & COLORS . TAILLE & COULEUR . GRÖSSE & FARBE

CON\_CRETÈ trova nella sensuale pastosità del colore la sua cifra espressiva. Materia che dà corpo a nuance uniche e versatili, in abbinamento ad altri prodotti con effetti diversi. Una paletta di sei colorazioni, declinata sui formati 120x120 - 90x90 - 60x120 - 60x60 - 30x60 spessore 9 mm e 20 mm, per una continuità visiva tra rivestimenti e pavimenti in spazi indoor e outdoor.

CON\_CRETÈ finds in the sensual mellowness of color its expressive signature. Matter that gives body to unique and versatile nuances, in combination with other products with different effects. A palette of six colors, declined in 120x120 - 90x90 - 60x120 - 60x60 - 30x60 sizes and with a 9 mm and 20 mm thickness, for a visual continuity between wall and floor coverings in indoor and outdoor spaces.

CON\_CRETÈ trouve dans la douceur sensuelle de la couleur sa signature expressive. Une matière qui donne corps à des nuances uniques et versatiles, en combinaison avec d'autres matériaux aux effets différents. Une palette de six couleurs, déclinées dans les formats 120x120 - 90x90 - 60x120 - 60x60 - 30x60 et avec une épaisseur de 9 mm et 20 mm, pour une continuité visuelle entre les revêtements de mur et de sol dans les espaces intérieurs et extérieurs.

CON\_CRETÈ findet seinen ausdrucksstarken Charakter in der sinnlichen Sanftheit der Farbe. Material, das einzigartigen und vielseitigen Nuancen Fülle verleiht, kombiniert mit anderen Produkten mit unterschiedlichen Effekten. Eine Palette von sechs Farben, erhältlich in den Formaten 120x120 - 90x90 - 60x120 - 60x60 - 30x60 mit einer Stärke von 9 mm und 20mm dick, für eine visuelle Kontinuität zwischen Belägen und Böden im Innen- und Außenbereich.

# LE SUPERFICI

SURFACE . PALETTE DE COLOURS . DIE FARBPOLETTE

Il cemento è diventato uno dei materiali preferiti di molti designer e architetti per le sue qualità estetiche e funzionali. La sua versatilità consente di creare una vasta gamma di superfici contemporanee, adatte sia agli ambienti interni sia a quelli esterni, ai residenziali e ai commerciali.

Da qui la scelta di realizzare superfici con poliedriche destinazioni d'uso:

**SATIN**, superficie morbida e leggermente riflettente ideale per rivestimenti ed ambienti interni residenziali

**SOFT GRIP®**, superficie matt (satinata non riflettente) con ottima prestazione tecnica, studiata specificamente per rispondere alle più elevate esigenze (resistenza alla scivolosità, al graffio e abrasione e facilità di pulizia) delle destinazioni d'uso commerciali.

**GRIP**, superficie antiscivolo che risponde alle esigenze tecniche delle pavimentazioni esterne

6

The cement has become a favorite material of many designers and architects because of its aesthetic and functional qualities. Its versatility makes it possible to create a wide range of contemporary surfaces, suitable for both indoor and outdoor environments, residential and commercial.

Hence the choice to create surfaces with multifaceted uses:

**SATIN**, a soft and slightly reflective surface ideal for residential interior coverings and environments

**SOFT GRIP®**, matt (satin non-reflective) surface with excellent technical performance, designed specifically to meet the highest requirements (slip, scratch and abrasion resistance and ease of cleaning) of commercial uses.

**GRIP**, non-slip surface that meets the technical requirements of outdoor flooring

Le béton est devenu l'un des matériaux de prédilection pour nombreux designers et architectes en raison de ses qualités esthétiques et fonctionnelles. Sa polyvalence permet de créer une large gamme de surfaces contemporaines, adaptées aux environnements intérieurs et extérieurs, résidentiels et commerciaux.

D'où le choix de créer des surfaces aux usages multiples :

**SATIN**, surface douce et légèrement réfléchissante idéale pour les revêtements et les environnements intérieurs résidentiels

**SOFT GRIP®**, surface mate (satinée non réfléchissante) aux excellentes performances techniques, conçue spécifiquement pour répondre aux exigences les plus élevées (résistance au glissement, aux rayures et à l'abrasion et facilité de nettoyage) des utilisations commerciales

**GRIP**, une surface antidérapante qui répond aux exigences techniques des revêtements de sol extérieurs.

Beton ist aufgrund seiner ästhetischen und funktionalen Qualitäten zu einem der beliebtesten Materialien vieler Designer und Architekten geworden. Dank seiner Vielseitigkeit können Sie eine breite Palette moderner Oberflächen schaffen, die sowohl für den Innen- als auch für den Außenbereich sowie für Wohn- und Gewerbe Umgebungen geeignet sind.

Daher die Entscheidung, Oberflächen mit vielfältigen Einsatzmöglichkeiten zu schaffen:

**SATIN** weiche und leicht reflektierende Oberfläche, ideal für Verkleidungen und Wohnräume

**SOFT GRIP®**, matte Oberfläche (satiniert, nicht reflektierend) mit hervorragenden technischen Eigenschaften, speziell entwickelt, um die höchsten Anforderungen (Rutschfestigkeit, Kratz- und Abriebfestigkeit sowie einfache Reinigung) gewerblicher Anwendungen zu erfüllen.

**GRIP**, eine rutschfeste Oberfläche, die den technischen Anforderungen von Außenböden gerecht wird.

**NOTA . INFORMATION . NOTE . ANMERKUNG**

In relazione alle differenti tecnologie produttive l'accostamento del formato 120x120 con altri formati potrebbe presentare delle disomogeneità, se ne consiglia pertanto l'abbinamento.

Due to the different production technologies, contiguous installation of the 120x120 size with other sizes may give a non-homogeneous result. For this reason we do not recommend this option.

Vu que différentes technologies de production, la combinaison du format 120x120 avec d'autres formats pourrait présenter quelques inhomogénéités et n'est donc pas recommandée.

In Bezug auf die verschiedenen Produktionstechnologien kann die Kombination des 120x120-Formats mit den anderen zu Inhomogenitäten führen, daher wird die Kombination nicht empfohlen.

Resistenza alle macchie Resistance to staining	UNI EN ISO 10545/14	Classe dichiarata Declared Class	5 resistente . resistant	5 resistente . resistant	5 resistente . resistant
Resistenza ai prodotti chimici di uso domestico e agli additivi per piscina Resistance to household chemicals and swimming pool salts		Classe minima B Minimum Class B	A	A	A
Resistenza a basse concentrazioni di acidi e alcali Resistance to low concentrations of acids and alkalis	UNI EN ISO 10545/13	Classe dichiarata Declared Class	LA	LA	LA
Resistenza ad alte concentrazioni di acidi e alcali Resistance to high concentrations of acids and alkalies		Classe dichiarata Declared Class	HA	HA	HA
Metodo della rampa "calzato" Shod Ramp Test	DIN EN 16165: 2023 Annex B	Valore dichiarato Declared value	-	R10	R11
Metodo della rampa a piedi nudi Barefoot Ramp Test	DIN EN 16165: 2023 Annex A	Valore dichiarato Declared value	-	A+B	A+B+C
Metodo del Pendolo Pendulum Friction Test	AS/NZS 4586	Declared Classification of the new pedestrian surface materials according to the Pendulum Test	-	P3	P4
	BS EN 16165: 2021 Annex C	PTV ≥ 36 classifies the su face as "low slip risk"	-	≥ 36 Wet	≥ 36 Wet
	UNE-ENV 12633	Valore dichiarato Declared value	-	Classe C2	Classe C3
Coefficiente di attrito Coefficient of friction (COF)	B.C.R.A Rep. CEC/81	D. M. 236/89 del 14/06/89 μ >0,40 per elemento scivolare cuoio su pavimentazione asciutta μ >0,40 per elemento scivolare gomma dura su pavimentazione bagnata	-	> 0,40 Asciutto > 0,40 Bagnato	> 0,40 Asciutto > 0,40 Bagnato
Coefficiente di attrito dinamico Dynamic coefficient of friction (DCOF)	ANSI A 326.3. 2017	ANSIA 326.3. 2017 Requires a minimum value of 0,42 for level interior space expected to be walked upon when wet.	-	≥ 0,42 Wet	≥ 0,62 Wet
Stonalizzazione Shading			V2	V2	V2
Fuga consigliata (*) Recommended joint	Indoor Oudoor	≥ 2 mm ≥ 5 mm			

\* Salvo diversa indicazione dei Codici di Posa Nazionali. La larghezza delle fughe deve comunque essere decisa dalla Direzione Lavori.

\*The width of grout joints must be established by the installation supervisor, unless grout widths are regulated by national laying standards.

## ABBINAMENTO DI COLORI

Colour Matching . Correspondance des couleurs . Farbabstimmung
