### L'arte del marmo in un gioco di geometrie

“Cut & Ricompose” è l'evoluzione della collezione Prestige che trasforma l'eleganza senza tempo del marmo in un dinamico dialogo di forme. Geometrie essenziali si incontrano, si intrecciano e si ricompongono in un raffinato equilibrio tra ordine e creatività. Tagli netti e accostamenti inaspettati danno vita a superfici che reinterpretano la materia con un'estetica contemporanea o vintage, giocando con contrasti e armonie. Il risultato? Un effetto marmo che supera la tradizione, abbracciando una visione moderna e sofisticata. Lasciati affascinare da un design che racconta il marmo in una nuova luce: audace, raffinato, unico.

## CUT&RECOMPOSE PRESTIGE

### I Layout e la Personalizzazione

“Cut & Recompose” di Prestige offre un’esperienza creativa unica, dove designer e creativi possono progettare decorazioni personalizzate scegliendo tra i layout proposti da Sichenia, ma anche ridisegnando liberamente la posa in base alle proprie esigenze estetiche e funzionali.

La possibilità di giocare con la stuccatura è fondamentale: nelle tinte unite, la scelta di una fuga tonale o a contrasto gioca un ruolo chiave, permettendo di neutralizzare o enfatizzare il layout con il colore, creando così combinazioni uniche e originali. La scelta del colore della fuga non è solo una questione estetica. Dipende molto dalla destinazione d’uso. Consigliamo fughe mediamente più intense ad esempio per pavimenti, mentre la scelta è più libera se il materiale va a rivestimento.

Questo approccio flessibile rende possibile realizzare decorazioni in grado di rispondere perfettamente a ogni esigenza, trasformando l’ispirazione in design concreto.

### Layouts and Customization

“Cut & Recompose” by Prestige offers a unique creative experience, where designers and creative people can design custom decorations by choosing from the layouts offered by Sichenia, but also by freely redesigning the laying according to their own aesthetic and functional needs.

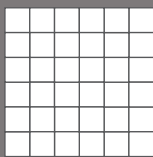

The ability to play with grout is key: in solid colors, the choice of a tonal or contrasting joint plays a key role, allowing the layout to be neutralized or emphasized with color, thus creating unique and original combinations. Choosing the color of the joint is not just a matter of aesthetics. It depends a lot on the intended use. We recommend a more on average grouts for example for floors, while the choice is free if the material is going for wall covering.

This flexible approach makes it possible to create decorations that respond perfectly to every need, turning inspiration into concrete design.

## PRESTIGE

### Le materie: I Marmi

In Cut & Ricompose ogni layout è stato studiato per sfruttare al meglio sia i piccoli che i grandi formati della collezione Prestige, permettendo di creare combinazioni originali, armoniche ed eventualmente personalizzabili. Le tonalità calde del beige del Travertine, il grigio elegante del Palissandro, le venature sofisticate del Calacatta Gold e del Port Laurent, insieme ai bianchi delicati e variegati del Dolomite e dell'Arabesque, possono essere mescolate tra loro per dar vita a composizioni che spaziano da soluzioni semplici ed essenziali a combinazioni più classiche e raffinate.

## PRESTIGE

### Materials: The Marble of Prestige Collection

In Cut & Recompose each layout is designed to make the most of both the small and large formats of the Prestige collection, allowing for original, harmonious and possibly customizable combinations. The warm beige tones of Travertine, the elegant gray of Palissandro, the sophisticated veining of Calacatta Gold and Port Laurent, along with the delicate and varied whites of Dolomite and Arabesque, can be mixed together to create compositions ranging from simple and essential solutions to more classic and refined combinations.
